RE: YMI Mechanical

To Whom It May Concern

I had the pleasure of working with YMI Mechanical on a 238,000 SF nine story Parking Garage, Medical Office Building, and an ASC (Ambulatory Surgery Center). YMI Mechanical was awarded this job and they did all the HVAC work for the Shell and Core of the building, in addition to a few of the Physicians Suites that were leased to the different doctors.

Over the last few years YMI Mechanical did also complete many other smaller size projects and did help in supporting the Hospital Engineering Department Staff in maintenance calls/issues as needed.

YMI Mechanical did all the above work in a professional manner and I highly recommend them for any future work or maintenance requests at the Hospital.

Respectfully,

Saliba Kokaly
