

THE YMI GROUP QUALITY WITHOUT COMPROMISE

COMMUNITY HOSPITAL

Community Hospital opened in 1973 as a 104-bed medical surgical facility. Today, the Lake County hospital is the largest and busiest hospital in the area with 427 beds and more than 575 physicians. It is also ranked as one of America's Best Hospitals by Healthgrades, putting them in the top 1% of hospitals in the nation. To address a capacity issue and continue providing the highest quality of patient care, satisfaction and privacy, Community Hospital underwent a multi-phase 24 month, \$33 million dollar expansion, adding four stories to the existing Munster, IN campus. Upon completion, the project projected to double the neonatal intensive care unit, increase the hospital's family services space, and expand the main surgical services unit. Chicago-based The YMI Group was hired to install the medical gas installation and equipment systems needed for the expansion project.

As part of the multi-million dollar project, The YMI Group installed the medical gas system for the hospital, an essential life-line component for patients, supplying oxygen, nitrous oxide, nitrogen, and medical air to various parts of the hospital. Beginning on the fourth floor and working down, YMI built a new med gas support, installing new vacuum pumps, air compressors, zone valves, and med gas booms. Where possible, The YMI Group built tied into the existing systems, including the oxygen bulk storage system.

The completion of the project was the latest in Community Hospital's continued commitment to providing top quality healthcare to the community and the patients they serve. The YMI Group completed the project ahead of schedule and it is now Medical Gas Certified for patient use.

WHO WE ARE

The YMI Group was incorporated in 2009, with Safety, Quality and Service being our main objectives. Everyone at The YMI Group is dedicated to ensure we achieve these requirements every day, without exception.

With over 30 years of experience in the construction industry, we provide sound, professional, and cost effective service, as well as "Quality Without Compromise" each and every time.
